

**UtiliSave**<sup>®</sup>

INFO. INSIGHTS. INCOME

GIVING YOU MORE SO YOU CAN DO MORE

**more technology. more services. more staff.  
more resources. more good.**

Just think what you could do with MORE. At UtiliSave, we're a unique complement of innovators, problem solvers, and analysts who use robust technology, comprehensive techniques, exacting methods, and an unparalleled service model to bring you MORE. Using your utility data as our springboard, our highly specialized consultants take a historical and current look to assess your energy spend and consumption to determine how much money you can recoup today and save tomorrow. And that means you can do more – of whatever is important to you.

**FREEDOM and FLEXIBILITY to  
reach your business goals.**

The information you always **WISHED** for.

## **more info**

**Complete information gathering is the first step on the way to MORE.**

Whether it's been a month, a year, or a decade since you took a look at how and what you're spending on utilities, the time for a fresh look is now. UtiliSave offers an unbiased assessment conducted by highly-specialized utility data experts who are committed to comprehensive data collection to form the basis of your savings plan.

Our twenty-plus years of experience means that we collect a wider pool of information, which translates into more possibilities for savings that other companies miss.

Thorough. Comprehensive. Detailed. More. Today.

**Why wait to begin saving?**

Teamwork that generates **RESULTS.**

**more insights**

All the information in the world doesn't save you money until you know how to apply it.

And that's where we excel. Using a robust platform and proprietary technology developed through years of practical experience, seasoned experts at UtiliSave will dig deep into the data that we've gathered, assessing and analyzing with a critical eye to deliver meaningful insights – insights to help you make important business decisions. Whether by securing large refunds, assisting in efficiency solution decisions, or measuring and verifying anticipated project savings. **We look harder and deliver more.**

**more income**

**It always comes down to the bottom line. And UtiliSave can deliver.**

We've recovered hundreds of millions of dollars for our clients since 1991. Through diligence, detail orientation, and analysis, we simply re-coup more. Clients realize significant savings the first year, but more importantly go on to reap savings year after year through the collaborative partnerships we form. Our service sets the bar for the industry. We thrive on generating results, and continuing to deliver those savings over time by keeping current on new approaches, sharpening our expertise, and continuously gathering more data and doing more analysis to generate new savings.

**Simply stated, we give you more so you can do more.**

**TRUST** matters

# Bill Audit™ - Forensic Auditing

## More money in your pocket.

Our forensic utility bill audit, Bill Audit™, is a simple way to start saving today and continue those savings year after year. Unbiased and on a mission to save you money without additional work on your end, we'll examine all the data to uncover billing and meter errors, evaluate rate plan modifications, confirm the accuracy of your deregulated energy purchases, and maximize overall savings.

Using innovative proprietary software to manage and analyze utility related data, our expert staff are able to conduct a comprehensive review going back up to six years – a review that not only results in a cost reduction in bills, but also pinpoints operational waste and highlights potential physical efficiency improvements. **The proof is in the data: our audits result in greater overall savings than those of other firms and more net dollars in our clients' pockets.** With savings that begin almost immediately as you recoup lost dollars, and cost reductions and efficiencies that continue year after year, the Forensic Audit is the first step in developing an ongoing partnership. We find more savings so that you can save more.

No matter your industry, UtiliSave has the expertise to save you money today – and in the years to come.

Take a look at some recent savings we've earned for our clients:

- **Universities:** Over \$18,000,000
- **Hospitals:** Over \$45,000,000
- **Nursing Homes/Long-Term Care Facilities:** Over \$11,000,000
- **Real Estate:** Over \$48,000,000
- **Manufacturing & Distribution:** Over \$7,000,000

*Don't delay ... info, insights, and income are waiting for you too.*

# UMI Platform

## Smart tool for smart management.

UMI (Utility Management Information Platform) is your dashboard for viewing the data we assemble, as well as your platform to add supplemental information for more informative reporting and decision making about your utility spending. And it's free to our Bill Audit™ clients.

An innovative utility data intelligence tool, it corrals all the data collected related to utility usage and makes it readily viewable in one convenient place. Much more than a data warehousing tool, UMI offers key metrics to help you make better decisions when it comes to energy management and spending. In addition to a full array of data analysis and presentation tools, UMI also provides extensive budgeting and alarm monitoring features.

Easily view metrics across your entire portfolio, or individuals facilities or accounts with UMI!

Flip over to see more of the UMI Platform →

## Smart tool for smart management.

Use UMI to manage 100 facilities, or take an in-depth look at just one, analyzing energy and water usage and budgets. Imagine setting a budget, based on the information from UMI, and tracking usage and spending automatically against that budget, with customizable alarms to keep you on track with both budgets and consumption.

An exceptional tool that delivers energy intelligence and lets you make smart choices -- at no cost.

Use advanced tools to graph interval data and see how your facility is performing each day!

Weather Normalize your bill data to more accurately determine if your efficiency measures are working!

## Other Innovative Products and Services

**Choose wisely!** Selecting the best vendor is important no matter how small the part or simple the service. We have a track record of exceeding our clients' expectations, across a wide range of services. We've led the industry in our forensic utility bill audits for over two decades, finding more savings and sustaining those savings over time. But we can offer you more.

Partnership is at the core. With a focus on giving you more, we've invested time and resources to help you improve operational efficiencies. Here's an overview of the other innovative products and services we provide.

- **Energy Benchmarking** **FREE**  
Compliance with local law requirements
- **ASHRAE Level II Audits:** We facilitate the logistics whether you're seeking compliance with local laws or for a business need
- **UMI Platform:** Set, measure, and meet financial and operational goals
- **Submetering:** A more reliable meter reading and bill service solution
- **Use Audit:**™ Big Data meets operational efficiency. Rely on data analysis to highlight operational inefficiencies
- **PlanCheck:** Real-time tracking that gives you the information to make continuous, educated purchasing decisions crucial to managing your energy expenses
- **Deregulated Energy Purchases** **FREE**  
Energy procurement done smarter
- **Demand Response** **FREE**  
Earn money while being eco-sensitive
- **Measurement and Verification:**  
Sustain efficiency savings over time by tracking and analyzing data continuously
- **Carbon Footprint Management:**  
Measure carbon savings from reductions in consumption

*We look forward to collaborating with you to become your total utility management partner.*

*Giving you more – info, insights, and income – so you can do more.*
