

# Proprietary software that provides savings and refund opportunities

CLIENT INDUSTRY VERTICAL

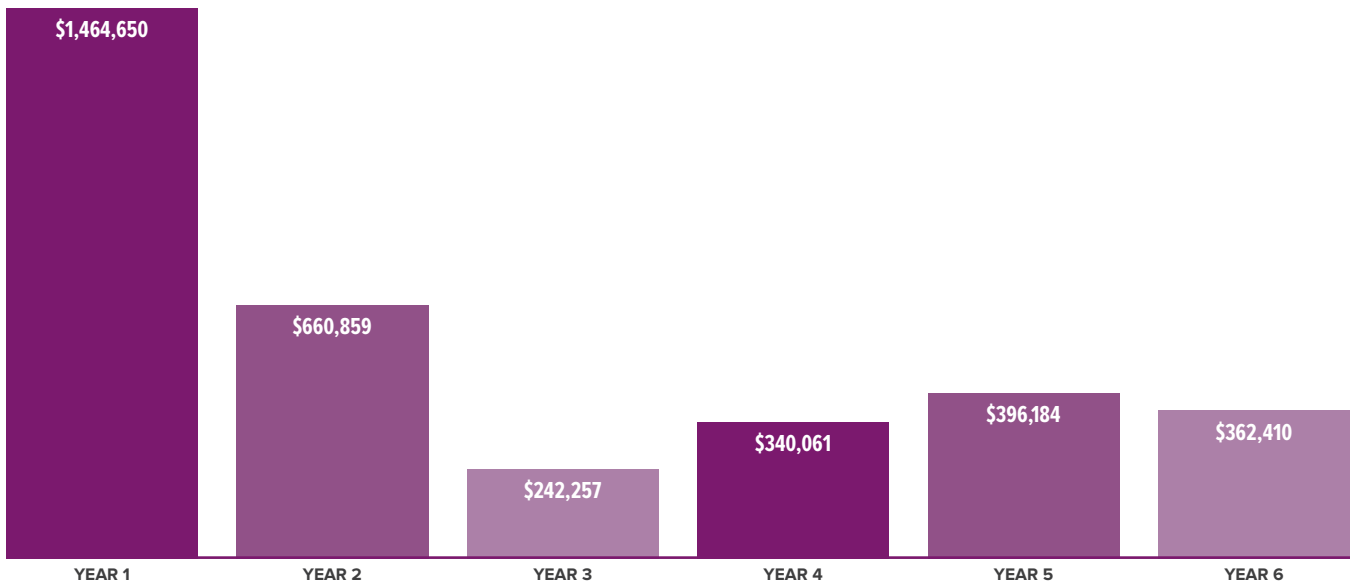

Government Org.

CLIENT UTILITY USE

**\$21,818,987**

Annual Spend

**TOTAL CLIENT SAVINGS TO DATE \$3,466,421**

This chart references a real UtiliSave client. The numbers represented are the actual savings / refunds delivered each year of the relationship.

UtiliSave was engaged by this Federal Agency to audit 10 of its facilities.

Using our auditing software, each facility's historical utility data was subjected to a wide variety of tests that identified multiple savings issues such as double bills, overlapping bills, multiplier errors, erroneous consumption, high demands, and incorrect fiscal rates. We also discovered that several meters at 2 of its facilities were overbilled for multiple billing periods, periods that lasted for 2-4 years in some cases. We were successful in recovering the full value of this erroneous billing.

Additionally, we implemented allowances that reduced the water consumption by 54%. Using our knowledge of various tariffs and government regulations, we identified a variety of exemptions that federal agencies such as this client were entitled to, but were not receiving. Based on this knowledge, we were able to successfully secure hundreds of thousands of dollars in savings.

An industry leader in utility data optimization for over **24 years.**

Marching strong toward **\$1 billion** in found savings and refunds for our clients.

Provides core services to over **16,000** properties nationwide.

Proprietary software dives deeper to deliver **larger net returns.**

Experience in **100+** tariff jurisdictions worldwide.
