TOTAL CLIENT SAVINGS TO DATE \$555,737

This chart references a real UtiliSave client. The numbers represented are the actual savings / refunds delivered each year.

UtiliSave audits the utility expenses of over 40 buildings owned by this entity and has sustained a long-term relationship for over 15 years. During the course of our ongoing audits, this client has benefitted from UtiliSave's dedicated R&D function, our continuous investment in our data mining and analysis applications, and our technical expertise

in tariff rules and regulations. The savings issues we have identified include more beneficial service classifications based on usage characteristics of a specific building, surcharges and tax-related exemptions, errors in utility billing methods, and errors in consumption and demand components of electric bills.

An industry leader in utility data optimization for over **24 years.**

Marching strong toward **\$1 billion** in found savings and refunds for our clients.

Provides core services to over **16,000** properties nationwide.

Proprietary software dives deeper to deliver **larger net returns.**

Experience in **100+** tariff jurisdictions worldwide.
